

# CROWN-TRAC<sup>®</sup> WHEELS

JANTSA is one of the few worldwide manufacturers capable to produce crown wheels with 8 different track options which is the most modern. This is the most modern design of adjustable wheels preferred by major tractor manufacturers.

**Convenience:** 8 standard wheel offset positions, easy and quick track changing guaranteed.

**Higher speed:** Designed for high horse power tractors operating at speed up to 65 km/h.

**Variety:** As of today we are capable to produce 22 wheel sizes in Crown-trac design. More sizes are coming within the next months!

**Higher load capacity:** The disc is connected to the rim with a continuous welded crown ring which assures higher load capacity compared to standart adjustable wheels
